Your advantages

Hand in hand with you, we work after clearly pre-defined specifications. Transparency and through going documentation makes our services effective and enduring.

QOS GmbH support you in developing and cultivating your sense of quality. Our team consists of practitioners who respond to your demands. We implicate your staff.

We support you during acquisition of resources and more over that, we temporarily take over management responsibilities, **in a meaning of project management on time**, also for internal tasks within you company.

Our priority is your **economical safety** and the **social development of all people involved**.

We always assure our **independence**, **transparency** and **ethical policies**, professionally we are always **up-to-date**.

Via quality orientation we help you to decrease your costs.

Our services and solutions are perfectly fitted to your requests.

Our promises

We convince through our performance.

We offer seminars for the following themes:

International Food Standard IFS and BRC, QMS acc. ISO 9001:2000, Q-Techniques and creativity tools, Process-Reengineering, Internal audits

After a profound analysis of the present situation we mutually agree upon our tasks, to be solved within a fixed time frame.

As the planning is fixed before start-up our job keeps transparency on all steps, regarding costs and results.
